### **DETAILED ACTION**

1. This action is in response to communications filed December 23, 2005.

#### ***Continued Examination Under 37 CFR 1.114***

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 23, 2005 has been entered.

#### ***Priority***

3. Examiner acknowledges Applicant's claim for priority under 35 USC § 120.

#### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. Claim 19 recites the limitation "the identifier" in the second to last line of the claim. There is insufficient antecedent basis for this limitation in the claim.

***Response to Arguments***

7. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

***Claim Rejections - 35 USC § 102***

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

9. Claims 19, 20, are rejected under 35 U.S.C. 102(a) as being anticipated by Applicants Admitted Prior Art (AAPA).

10. In considering claim 19, AAPA discloses: a gateway apparatus connected via a network to a first communication apparatus and a server for holding information on correspondence between IP addresses allocated to communication apparatuses and names of those communication apparatuses, comprising: means for receiving a packet sent to a second communication apparatus from the first communication apparatus, (pages 4-5); means for sending a query to the server about the address information of

the second communication apparatus, (pages 2 and 4-6); and means for transferring said packet to the home gateway apparatus of the second communication apparatus according to the identifier thereof, said identifier being included in a reply signal returned from said server in response to said query, (pages 4-5).

11. In considering claim 20, AAPA discloses: the server holds information on correspondence between IP addresses allocated to communication apparatuses, names of those communication apparatuses and identifiers of home gateway apparatus of those communication apparatuses, (pages 2 and 4-6).

### ***Allowable Subject Matter***

12. After consideration of Applicant's amendments and remarks, claims 15-18 are allowed over the prior art.
